### SUMMARY

---

Senior full-stack engineer with 18+ years building and owning business-critical systems. Technical owner of HP Indigo's LATAM core operational platform (400+ active users, 24/7), built with C#/ASP.NET, React, and SQL Server. Replaced legacy and Excel-based processes with automated workflows, cutting critical processing times by up to 95%. Experienced in Agile/Scrum teams; fluent in English.

### TECHNICAL SKILLS

---

**Backend:** C#, .NET, ASP.NET, REST APIs, PHP, ASP

**Frontend:** React, JavaScript, HTML/CSS

**Databases:** SQL Server, MySQL, query optimization

**Cloud & Tools:** Azure, Git, TFS, Visual Studio, VS Code, Postman

**Mobile:** Flutter

**Practices:** Agile/Scrum, system architecture, production support

### PROFESSIONAL EXPERIENCE

---

#### HP Indigo

Nov 2021 – Present

##### Software Development Engineer

- Architected and own the LATAM core operational platform (C#, ASP.NET, React, SQL Server), serving 400+ active users with 24/7 availability.
- Replaced legacy HP processes and manual Excel workflows with automated web solutions, cutting critical processing time by 95% (recurring tasks: 1 week to 15 minutes; publishing: 1 day to 3 hours; inventory: 5 days to 1 day).
- Reduced Excel dependency by 70% by delivering self-service web and mobile tools.
- Designed and built a multi-level approval module used daily by 150+ users across web and mobile.

#### Sistemas y Aplicaciones para Servicios de Salud

Jul 2021 – Sep 2021

##### Software Development Engineer

- Built and maintained a full-stack clinical laboratory system (JavaScript, C#, SQL Server, REST APIs).
- Integrated lab equipment and external APIs to automate result capture and patient report delivery.
- Optimized SQL queries and backend processes to speed up report generation and medical history lookups.

#### Pacific Support and West Service S.A. de C.V.

Oct 2018 – Nov 2019

##### Software Developer & IT Administrator

- Developed and deployed internal web applications (PHP, MySQL) on on-premise Linux servers.
- Sole technical owner of IT infrastructure: Linux servers, LAN, backups, and security.
- Shipped production hotfixes and live operational changes with zero downtime.

#### Rio Root S.A. de C.V.

Jun 2017 – Oct 2018

##### PHP Web Developer

- Built inventory, ticketing, and IT asset management systems for internal operations.
- Implemented a document control system with approval workflows and version traceability.

#### Micro Acc

Jan 2009 – Aug 2016

##### Full-Stack Developer & IT Support Lead

- Designed and built a full ERP from scratch (C#, Windows Forms, SQL Server) that became the operational core of a wholesale company.
- Developed a warranty validation system integrated with invoicing (eligibility by serial number, purchase date, and vendor) and a customer web portal (PHP/ASP) on the same SQL Server database.
- Managed full IT infrastructure: Windows Server, LAN, CCTV, and customer technical support.

### EDUCATION

---

#### B.S. in Computer Systems Engineering

Universidad del Valle de Atemajac (UNIVA), Puerto Vallarta, Mexico
